EDUCATION

Bachelor of Computer Engineering – TED University

Faculty of Engineering (100% English) | GPA: 3.06/4.00 | Senior Year

March 2023 – Present

BTEC Higher National Diploma in Business Administration – Pearson

Faculty of Economics and Administrative Sciences (100% English)

2024 – Present

Secondary Field of Business Administration – TED University

2024 – Present

TECHNICAL SKILLS

Languages: Python, Java, C#, C, SQL Technologies: MS SQL, Firebase, .NET Framework (Windows Forms), UML, Git, Isaac-Sim, Gazebo, ROS2 Tools & Methods: SikuliX, Agile/Scrum, Test Automation, Database-First & Code-First Development es, and collaborated with the development team

WORK EXPERIENCE

ASELSAN Elektronik Sanayi ve Ticaret A.Ş.

Software Test Intern

Aug – Sep 2025

- Developed black-box test automations using Python and SikuliX with visual verification for system modules
- Prepared and executed YTET test procedures, documenting results for quality assurance records
- Managed defect lifecycle in an Agile workflow: logged defects, analysed outcomes, and collaborated with the development team

Agartha Teknoloji A.Ş.

Software Development Intern

Jun – Jul 2024

- Designed and built a Customer & Employee Management System (ERP) using C# and MS SQL, implementing Database-First and Code-First approaches in .NET Windows Forms
- Delivered final project presentation to company stakeholders; gained hands-on experience in database management and system integration

PROJECTS

Vision-Based Navigation – TAI Lift Up Programme

Turkish Aerospace Industries (TAI) & TED University

2025 – Present

- Conducting research on innovative vision-based navigation methods for low-altitude GNSS-denied mission scenarios, collaborating with TAI engineers

AKKE – Senior Project (TED University)

2025 – Present

- Developing a wearable control interface utilizing flex sensors and IMUs to capture complex hand gestures for intuitive unmanned system operations.
- Implementing TinyML models on embedded systems to enable real-time, on-device gesture recognition and low-latency command execution.
- Developing a cross-platform mobile app handling user authentication, real-time data storage, and push notifications

LetFash – Mobile Application (Flutter & Firebase)

2024 – Present

- Developing a cross-platform mobile app handling user authentication, real-time data storage, and push notifications

COMPETITIONS & AWARDS

- TEKNOFEST**– 3rd Place, Technology for the Benefit of Humanity (Transportation Category)
- First Lego League**– 5th Place & Responsive Professionalism Award

2019
2019

CERTIFICATIONS

- IBM (Coursera):** Python Project for Data Science; Python for Data Science, AI & Development
- Hong Kong University (Coursera):** Software Engineering – UML, Design & Project Management, Implementation & Testing
- University of Maryland (Coursera):** Corporate Entrepreneurship (Business Model; Developing the Opportunity)
- University of Virginia (Coursera):** Financial Accounting Fundamentals
- Other:** C Programming (BTK Akademi), OHS Certificate (ASELSAN), Talent Coders TechCamp

VOLUNTEER EXPERIENCE

- TEDx Ankara – Registration Team Leader:** Coordinated the registration process, managed a team of volunteers
- TEDx Ankara – Registration Team Member:** Supported event operations and attendee check-in
- Çözüm Felsefe Günleri – Steering Team Leader:** Led event logistics and programme coordination

2020 – 2022
2019 – 2020
2020

LANGUAGES

Turkish – Native | English – Upper-Intermediate (B2) TEDU English Language School Certificate

2021–2023

ADDITIONAL

International Experience: Embassy Summer (2018), Fundacja EuroWeek (2019), EC London English (2022)
